ECC-OL-R4B-2022-0102

Mr. MAXWELL SHAINE MORILLO QUILAT
Owner
MM QUILAT SAND AND GRAVEL QUARRYING
Liboro St., Cor. Burgos St., Brgy 3 Pob.
San Jose Occidental Mindoro

Subject: ENVIRONMENTAL COMPLIANCE CERTIFICATE

Dear Mr. Quilat;

This refers to the Environmental Compliance Certificate (ECC) application for the proposed MM Quilat Sand and Gravel Quarrying Project to be located at Lumintao River, Brgy. Malawaan, Rizal, Occidental Mindoro.

After satisfying the requirements of the said application, this Bureau has decided to grant an ECC for the above-mentioned project.

With the issuance of this ECC, you are expected to implement the measures presented in the Initial Environmental Examination Checklist (IEEC), intended to protect and mitigate the project's adverse impacts on community health, welfare and the environment. Environmental considerations shall be incorporated in all phases and aspects of the project.

This Certificate does not create any right nor be used as an authorization to implement the project, you may proceed with the implementation only after securing all the necessary and relevant permits from other pertinent Government Agencies. This Office shall be monitoring the project periodically to ensure strict compliance with the stipulations cited in the attached ECC.

Please be guided accordingly.

JOE AMIĽ M. SALINO

Regional Director

Republic of the Philippines Department of Environment and Natural Resource ENVIRONMENTAL MANAGEMENT BUREAU

1515 L and S Building, Roxas Boulevard, Pasay City Telephone No.(02) 400-5960 Fax No.(02) 400-5960 mimaropa@emb.gov.ph and emb_mimaropa@yahoo.com Visit us at http://www.mimaropa.emb.gov.ph/

ENVIRONMENTAL COMPLIANCE CERTIFICATE

(Issued under Presidential Decree 1586)

ECC-OL-R4B-2022-0102

THIS IS TO CERTIFY THAT THE PROPONENT, MAXWELL SHAINE MORILLO QUILAT, is granted this Environmental Compliance Certificate (ECC), for the MM QUILAT SAND AND GRAVEL QUARRYING PROJECT located at Lumintao River, Brgy. Malawaan, Rizal, Occidental Mindoro by the Department of Environment and Natural Resources (DENR), through the Environmental Management Bureau (EMB).

SUBJECT ONLY to the conditions and restrictions set in this ECC and in the attached document labelled as **Annexes A and B**.

This Certificate is issued with the following details:

PROJECT DESCRIPTION

This ECC covers the MM QUILAT SAND AND GRAVEL QUARRYING PROJECT having a total land area of 44,756.00 square meters (4.4756 Hectares) and Extraction Rate of 156,262.57 MT (65,000 m³) per annum, located at Lumintao River, Brgy. Malawaan, Rizal, Occidental Mindoro, specifically described as follows:

TIE LINE: N 40° 37' E. 1,980.90 M; From MRW-3572 (BBLM-13, CAD 1295 – D), Rizal, Occidental Mindoro to Corner Marked "1":

Line	Bearing	Distance
1-2	N 89° 22' E	130.77 M.
2-3	S 11° 41' W	158.98 M.
3-4	N 63° 01' W	156.35 M.
4-5	S 86° 00' W	43.08 M.
5-6	S 67° 42' W	283.75 M.
6-7	N 16° 59' W	107.86 M.
7-8	N 73° 38' E	93.89 M.
8-9	S 89° 49' E	92.58 M.
9-1	S 71° 40' E	205.54 M.

The project shall operate and maintain its facilities and amenities as contained in the submitted **Initial Environmental Examination Checklist (IEEC) Report and Environmental Management Plan (EMP)**.

This Certificate is issued in compliance with the requirements of Presidential Decree No. 1586, and in accordance to DENR Administrative Order (D.A.O.) No. 2003-30. Non-compliance with any of the provisions of this Certificate shall be a sufficient cause for the cancellation of this Certificate and/or imposition of a fine in an amount not to exceed Fifty Thousand Pesos (**P50**, **000.00**) for every violation thereof without prejudice to imposition of fines and penalties under other environmental laws. The EMB, however, is not precluded from reevaluating and correcting any deficiencies or errors that may be found after issuance of this Certificate.

Issued at EMB-R4B, 1515 L and S Building, Roxas Boulevard, Manila this June 20, 2022.

Recommending Approval:

I. ENVIRONMENTAL MANAGEMENT

All commitments, mitigating measures and monitoring requirements, contained in the Initial Environmental Examination Checklist Report for the proposed (MM QUILAT SAND AND GRAVEL QUARRYING PROJECT), particularly in the Environmental Management Plan/ Environmental Monitoring Plan, including any modifications and/or additional information as approved by the EMB, shall be instituted to minimize any adverse impact of the project to the environment throughout its implementation, which shall include among others to wit:

POTENTIAL IMPACT PER PROJECT ACTIVITY PER PROJECT PHASE	MITIGATING MEASURES	RATING/ PERFORMANCE OF MITIGATING MEASURES		
A. Operational Phase				
A.1 Delivery and transfer of raw (SAG) materials and finished goods, processing Administrative Operation and other Facilties for with crushing project				
Degradation of surface water quality due to contamination from domestic wastewater (with crushing plant)	 Provide (indicate number) of portalets for construction workers Note: at least one (1) portalet for 25 workers where the number of male workers exceeds 100 (as per IRR-Industrial Hygiene, PD 856 Amending Administrative Order 111 Series of 1991) Provision of a temporary septic tank or wastewater collection system for workers Hauling of wastewater from portalets/septic tanks by a third party shall be covered by a licensed/permit from LGU and with a valid Discharge Permit for the 	100% complaint with RA 9275		
Degradation of surface water quality due to contamination from oil, fuel or other lubricant agents leaks from heavy equipments	 wastewater treatment facility Provision of spill boom; Use of properly maintained heavy equipment 	100% complaint with RA 9275		
Potential siltation (turbidity) during Extraction	 Provision of temporary sand barrier from the active site/area of extraction (if applicable); Provision of silt curtain (if applicable) Appropriate method of extraction as identified by MGB 	100% complaint with RA 9275		
Generation of Process Wastewater (with Crushing)	 Provision of Settling Pond in Series (at least 3 chamber) Provision of Drainage Canal 	100% compliance with RA 9275		
Generation of noise from equipments (crushers, screens, etc.)	 Provision of enclosures or muffling devices on engines and equipments Use of sound-absorbing liners (e.g. rubber) Daytime operation only, or secure permit/clearance from concerned barangay if operating at nighttime 	100% Noise within the standard (NPCC MC 002 Series of 1980)		
Generation of air pollutants from delivery trucks/ generator set	Use of mufflers, silencer, and exhaust pipes;	100% compliance with RA 8749		
Generation of solid wastes	 Provision of Materials Recovery Facility (MRF) Segregation of wastes with proper labeling, and wastes materials manifest indicating the volume of waste and date of collection/segregation 	100% compliant to RA 9003		

Generation of used oil (from a	 Hauling of domestic wastes by a third-party contractor with permit/clearance from LGU for proper disposal of wastes. Compost materials (if any) shall be made available to community for distribution through its Corporate Social Responsibility (CSR) Provision of storage facility/area and collection of 	100% compliant to
motor pool) and other hazardous materials (ie. used batteries, fluorescent lamps) (with Crushing)	hazardous wastes by DENR accredited 3 rd party hauler and treater	RA 6969
Generation of hazardous wastes (with Crushing)	 Provision of storage facility/area and collected by hazardous wastes DENR accredited third party hauler and treater Provision of PPE for proper handling 	100% compliant to RA 6969
Generation of Used Oils from heavy equipment	Proper disposal of generated used oils	100% compliant to RA 6969
Riverbank Erosion/Scouring	 Planting of Bamboos or applicable tree species along the nearest riverbank, in disturbed areas, or in steep slopes to prevent soil erosion Uniform depth method of SAG Extraction Provision of a buffer zone to protect the riverbank 	100 No erosion caused by the project
Impacts on Infrastructure (Bridges and Irrigation Canals)	• No extraction within one (1) kilometer radius from any government infrastructure project(s)	
Generation of effluents due to wastewater generation	 Monitoring of the following significant effluent quality parameters: Total Suspended Solids 	100% compliance with DENR effluent standards (RA 9275); (i.e.DAO 2016-08 and DAO 2021-19)

II. GENERAL CONDITIONS

- 1. That the proponent shall ensure that the project implementation shall **NOT COMMENCE** unless all required/clearances from the concerned government agencies are secured. EMB shall be advised when all the permits/clearances are secured and when will be the actual date of project implementation;
- 2. The proponent shall comply with all the provisions of RA 9275, the Philippine Clean Water Act of 2004 and its Implementing Rules and Regulations;
- 3. The proponent shall install and maintain air pollution control devices to minimize dust and gas emissions from different sources. Likewise the proponent shall ensure that emissions at all times comply with the DENR standards and with all the provisions of RA 8749, the Philippine Clean Air Act of 1999 and its Implementing Rules and Regulations;
- 4. The proponent shall install, operate, and maintain collection, handling, treatment, storage and disposal facilities or any system serving different sources of hazardous waste. The system shall be properly operated to ensure compliance with all the provisions of RA 6969, the Toxic Substances and Hazardous and Nuclear Wastes Control Act of 1990 and its Implementing Rules and Regulations;
- 5. The proponent Install, operate and maintain collection, handling, treatment, storage and disposal facilities or any system serving different sources of solid waste. The system shall be properly operated to ensure compliance with all the provisions of RA 9003, the Ecological Solid Waste Management Act of 2000 and its Implementing Rules and Regulations;
- 6. Planting of appropriate tree species shall be undertaken in coordination with DENR CENRO in support to National Greening Program of the DENR to compensate for the loss of vegetation. Replacement of trees shall follow the following ratio: 50 trees for one (1) planted tree cut and 100 trees for one (1) naturally growing tree cut.

- 7. Stockpiling of aggregates shall not be allowed on the riverbed and shall be done only on the designated areas, stockpiled in low mounds and away from the riverbanks;
- 8. No diversion of the flow of the river shall be undertaken or any construction that would reduce the width of the river channel, constrict or impede the flow of water (including the construction of access roads)
- 9. Submit certification from DPWH/NIA that the project area is outside the 1-kilometer radius from the boundaries of reservoirs and of any public/private structures prior to project implementation;
- 10. That the proponent shall set-up a competent Environmental Unit (EU) with a Pollution Control Officer, within six (6) months from issuance of this Certificate and shall be duly accredited by this Office in accordance with DAO No. 02, series of 2014 (Revised Guidelines for Pollution Officer Accreditation). The Environmental Unit (EU) shall competently handle the environment-related aspects of the project. In addition to the monitoring requirements as specified in the Environmental Management Plan/ Environmental Monitoring Plan, the EU shall have the following responsibilities:
 - 10.1. Monitor actual project impacts vis-à-vis the predicted impacts and management measures in the Generic IEE Checklist Report;
 - 10.2. Recommend revisions to the EMP/EMoP, whenever necessary subject to the approval of EMB-4B (MIMAROPA Region);
 - 10.3. Ensure that data gathered during monitoring activities are properly documented, assessed, evaluated and reported to EMB-4B (MIMAROPA Region) in accordance with the standard formats;
 - 10.4. Ensure that monitoring and submissions of reports to EMB-4B (MIMAROPA Region) are carried out as required;
 - 10.5. Regular submission of the following reports:
 - 10.5.1. A semi-annual *ECC Compliance Monitoring Report* within fifteen (15) days at the end of each semi-annual reporting period. The CMR must be provided with supporting documents and in accordance with the prescribed format stipulated in the Implementing Rules and Regulations of P.D. 1586;
 - 10.5.2. Submit a *Quarterly Self-Monitoring Report* within fifteen (15) days at the end of each quarter. The SMR must be in accordance with the prescribed format of the *Self-Monitoring Report (SMR)* pursuant to DAO 2003-27;
- 11. The proponent shall submit an Abandonment Plan to the EMB Regional Office at least six (6) months prior to project abandonment. The plan shall include rehabilitation measures/clean-up, remediation of areas affected by the project and proposed alternative projects in the area;
- 12. That should there be any unwarranted destruction (from the scouring of the riverbank) of the adjacent private property / land, etc. brought about by the project implementation, the same shall be reported immediately to this office or to the nearest CENRO within 24 hours and the operation causing the same shall be automatically stopped. Likewise, restoration/mitigation or compensation shall be carried out by the proponent and a report of such restoration/mitigation or compensation shall be submitted to this office for evaluation and determination whether the operation shall be allowed to continue or not based on the environmental conditions;
- 13. That there shall be no screening and/or washing of quarry materials within the streambed to avoid siltation and turbidity of water. Likewise, no stockpile shall be left at the streambed during extraction to avoid obstruction of water flow;

- 14. That the proponent shall strictly manage all project related traffic problems, excessive surface runoff, dust, soil erosion, accidental spillage and health hazards identified in the Initial Environmental Examination (IEE) Checklist Report and, in case of emergency episodes, appropriate response activities shall be immediately undertaken for the protection of the workers/ personnel, host and nearby communities and the receiving environment;
- 15. That preservation and easement retention of natural drainage/waterways shall be undertaken and should conform with the provisions of the DENR Administrative Order No. 97-05 (Procedures in the Retention of Areas within certain distances along the Banks of Rivers, Streams, and Shores of Seas, Lakes and Oceans for Environmental Protection). If disturbed, a replacement drainage system shall be constructed within two (2) months from the disturbance;
- 16. That the quarry site, with respect to the survey plan submitted, shall be delineated with visible permanent markers.
- 17. That health and sanitation practices shall be observed in all phases of the project and safety & personal protection equipment/devices shall always be provided to all employees/workers within the premises of the project site to prevent health and occupational hazards;
- 18. That a billboard containing this message: "Notice to the Public, MM QUILAT SAND AND GRAVEL QUARRYING PROJECT of MAXWELL SHAINE MORILLO QUILAT, has been issued an Environmental Compliance Certificate (ECC-OL-R4B-2022-0102) by the Department of Environment and Natural Resources Environmental Management Bureau MIMAROPA Region on June 20, 2022." shall be installed at all entry and exit points and in the perimeter of the project site facing the road to inform the general public within thirty (30) days from receipt of the ECC;
- 19. That a copy of the ECC shall be posted in a conspicuous location at the field office of the project site clearly visible to the public and shall be adequately framed or otherwise protected against damage and at the barangay bulletin board of the host barangay(s) within thirty (30) days from receipt of the ECC;
- 20. That the proponent shall submit monthly drone shots of the activity area (Operation Phase);
- 21. The proponent shall provide "one entry" and "one exit" for its operation and shall install a Closed-Circuit Television (CCTV) connected to the server of EMB Regional Office concerned;
- 22. That any authorized DENR-EMB personnel, with proper identification card and travel/mission order, shall be allowed unconditional access to conduct an on-the-spot inspection and monitoring to the project without the need for prior notice to the proponent to oversee compliance to the ECC.

III. RESTRICTIONS

- 23. No other activities shall be undertaken other than what was stipulated in the IEEC document. Any expansion or modification of the Project beyond the project description or any change in the activity shall be subject to a new EIA study;
- 24. That all recommendations cited in the submitted MGB-accepted/approved Geological Assessment Report (GAR) shall be undertaken at all phases of the project implementation;
- 25. That a limit of extraction shall NOT exceed to the slope/gradient identified in the MGB-accepted/approved Geological Assessment Report (GAR) and strictly within the approved quarry site. Monthly report of extraction shall be incorporated in the quarterly and semi-annual monitoring reports (SMR and CMR);
- 26. That the proponent shall maintain a uniform depth of extraction at any given time on the approved area;

- 27. In case of transfer of ownership of this Project, these same conditions and restrictions for which written notification must be made by herein grantee to EMB within fifteen (15) working days from such transfer; and
- 28. That the proponent (MAXWELL SHAINE MORILLO QUILAT) shall be accountable for any misrepresentation and failure to state material information in the submitted documents.

The conditions stipulated in this Certificate shall be deemed final within fifteen (15) days from receipt hereof and all conditions and restrictions set forth above shall be complied with by the herein grantee. This ECC is deemed expired if not implemented within five (5) years from the date of issuance and the proponent shall have to apply for a new ECC if it intends to pursue the project.
